DETAILED ACTION

This Office Action is in response to Applicant's Election dated 8/20/2007.

Election/Restrictions

1. Claims 25-30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 08/20/2007.
2. Applicant's election with traverse of claims 1, 2, 4-9, 12-15, 18-20, 23 and 24 in the reply filed on 08/20/2007 is acknowledged. The traversal is on the ground(s) that the standard of unity of invention applied to the present invention because claims 25-30 are related in that the non-uniform quantum dots in a semiconductor multilayered structure. This is not found persuasive because the general limitation of "non-uniform quantum dots in a semiconductor multilayered structure" is not a special technical feature since limitation of "non-uniform quantum dots in a semiconductor multilayered structure" has been conventional well-known in the art. The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 2, 4-9, 12-15, 18-20 and 23-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

► With respect to claim 1,

line 3, "the structure" lacking antecedent basis should be changed to "the semiconductor multi-layered structure" as consistent claimed language to clarify scope of claim.

line 3, "such quantum dots" lacking antecedent basis renders the claim indefinite. It is not clear that "such quantum dots" as cited on line 3 refers back/is the same or is different to "non-uniform quantum dots" as cited on lines 1-2. Applicant is respectfully suggested to clarify and use consistent claimed language to clarify scope of claim.

line 4, "the quantum dots in the layer" lacking antecedent basis renders the claim indefinite. It is not clear that "the quantum dots" and "the layer" respectively refer to which quantum dots and layer. Applicant is respectfully suggested to clarify and use consistent claimed language to clarify scope of claim.

► With respect to claim 2,

line 3, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully

suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 5,

Line 3, "the quantum dots" lacking antecedent basis should be changed to "the non-uniform quantum dots" to clarify scope of claim.

Lines 5 and 7, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 6,

line 5, "the quantum dots" lacking antecedent basis should be changed to "the non-uniform quantum dots" to clarify scope of claim.

lines 6, 7, 9 and 10, terms "it" render the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 8,

line 3, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

line 6, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

► With respect to claim 9,

line 3, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

line 3, it is not clear that "a semiconductor multi-layered structure" as cited on line 3 is the same or different to " a semiconductor multi-layered structure" as cited on lines 1-2.

line 7, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

► With respect to claim 12,

Line 3, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

► With respect to claim 13,

line 4, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

lines 6 and 8, lines 6, 7, 9 and 10, terms "it" render the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 14,

line 4, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

lines 5 and 6, terms "it" render the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 15,

line 3, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

Line 6, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

► With respect to claim 18,

line 5, "the quantum dots" lacking antecedent basis should be changed to "the non-uniform quantum dots" to clarify scope of claim.

lines 5, 6, 8 and 9, terms "it" render the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

► With respect to claim 20,

line 3, term "it" renders the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.

line 6, "said quantum dots" lacking antecedent basis should be changed to "said non-uniform quantum dots" to clarify scope of claim.

► With respect to claim 23,

line 4, "the quantum dots" lacking antecedent basis should be changed to "the non-uniform quantum dots" to clarify scope of claim.

lines 6, 7, 9 and 10, terms "it" render the claim indefinite. It is not clear that "it" represents or stands for which claimed element. Applicant is respectfully suggested to clarify and use positive consistent claimed language to clarify scope of claim.
